CLERK**

Illinois Judicial Conference Automation and Technology Committee

CONFERENCE YEAR 2012

Statement of Purpose:

The Automation and Technology Committee shall provide consultation, guidance, and recommendations regarding standards, policies and procedures relating to the use of technology and automation within the judicial branch.

General Charge:

The Committee shall develop general guidelines which promote the effective and efficient use of technology and automation in the trial courts including recommendations for statewide standards, protocols, or procedures. The Committee shall analyze and develop recommendations related to rules and statutory changes that will manage the use of technology within the courts. The Committee's work also includes the review and evaluation of technology applications and their impact on the operation and workflow of the court. The Committee will also research and recommend response protocols to resolve security issues which may affect the use of technology. The Automation and Technology Committee, working in conjunction with the Special Supreme Court Committee on E-Business, shall represent the judges' standpoint for the development and implementation of e-business applications in the Illinois court system, including but not limited to e-filing. The Automation and Technology Committee shall develop general guidelines and statewide standards, protocols, or procedures on the use of e-business in the trial courts, the Appellate Court, and the Supreme Court; analyze applicable rules and statutes and develop recommendations for any changes necessary for the use of e-business within the courts; and review and evaluate e-business applications and impact on the operation and workflow of the courts.
